Of this class of paper the supply has been so good that an assurance of active trade is thereby gained. Money has been in full supply throughout the week and freely furnished to all borrowers able to make acceptable paper at 8 per cent., with the usual shading of this rate to favorite customers—those who offer unexceptionable collateral and want round sums on short time."

Nothing was reported in local stocks or bonds; neither spiritualists nor those who expose their tricks raise a spirit of speculation: spirit-brides are more common than spirited 2xds for anything.

The cotton market appears to have got un-der new and better influences, for it became stronger and the demand was everywhere quality cottons; those grades are scarce, con-sequently the acceptable offerings were not large, which prevented transactions being as extensive or as numerous as would otherwise have been the case.
